

Exercise V-Cycle - 1

Using the scheme in the next page, answer the following questions:

1. Draw the v-cycle using the main milestone of the project;
2. Analyze ECU1 timeline from 2019 to 2022 describing all the phases; (voids in the timeline, colours, ends)
3. What is a PCR?
4. Why PCR's timeline is shifted compared to the single ECUs one?
5. What kind of activity would you do on a PCR software release?
6. Describe the VP fleet timeline; (Relationships with other timeline, specifically with vehicle timeline, Quality gate, requirements, PCR)
7. What is the J1? What do you think is its preparation in factories before J1 date? Are there activities related to the SW before/during J1?
8. General analysis of the plan;
